

Zencellose M20K30

| | |
|--------------|--|
| Description: | Zencellose M20K30 is a medium-low viscosity, very highly modified cellulose ether made for premium tile adhesives, it improves open time, imparts excellent sag resistance and workability |
|--------------|--|

Specifications

| | |
|------------------------|------------------|
| 2% Viscosity (RV@20°C) | 20000 ± 2000 cps |
| Appearance: | Whitish powder |
| Particle size: | 99% |
| Moisture Content: | Max 5% |
| Ash Content: | Max 6% |

Modification & Applications

| | |
|------------------------------|--|
| Modification Characteristics | Very good sag resistance Very Long open time Improved Workability Improved water demand |
| Suggested Applications | Cementitious Tile Adhesives |

Packaging and Storage

| | |
|------------|---|
| Bags | Woven multi-layer bags with Polyethylene lining Net weight: 25KG |
| Pallets | 4 bags per layer, total 12 layers Net weight 1200 KG |
| Containers | 20 ft General Purpose container: 12000 KG, 10 pallets 40 ft General Purpose container: 24000 KG, 20 pallets Other configuration possible upon inquiry |
| Storage | In unopened bags, this product can last several years. In opened bags, the moisture content of this product will be influenced by air humidity. See MSDS for information on handling, transportation, and storage of the product. |
