

TECHNICAL INFORMATION

Technical Datasheet (preliminary)

TECHNOCEL® DR 1004-3Z

Dust reducing filler of technical raw cellulose.

TECHNOCEL® products are totally harmless from the environmental as well as medical point of view and are made from renewable raw material and resources.

The technical functions in the different applications are for example: thixotropy, armouring and adsorption. Furthermore **TECHNOCEL®** is used as carrier and filler.

specification

characteristic	value	unit
standard analysis		
cellulose content	~ 60	%
appearance	grey fiber	
loose density	< 90	g/l
pH value	6.0 – 9.0	
residue on ignition	< 20.0	%
Ø fibre length	~ 1100	µm

shelf life:

2 years, dry, cold and sun protected storage
